

Below are cmdlets and parameters associated with the settings shown in the video. Remember, you can find more information about these commands on Microsoft's website:

<https://learn.microsoft.com/en-us/powershell/module/teams/?view=teams-ps>

These options are in the *Microsoft Teams Admin Center > Voice > Mobility policies* section.

Note: Some Microsoft Teams cmdlets use the Boolean values *\$true/\$false* or *Enabled/Disabled* in PowerShell:

\$true or *Enabled*: Indicates that a setting or feature is On.

\$false or *Disabled*: Indicates that a setting or feature is Off.

Select a mobile dialer

```
Set-CsTeamsMobilityPolicy -Identity DemoMobilityPolicy
-MobileDialerPreference UserOverride
```

Microsoft Team Admin Center option	PowerShell
Microsoft Teams	Teams
Native Dialer	Native
User Controlled	UserOverride

The following can only be configured via PowerShell.

IPVideoMobileMode

```
New-CsTeamsMobilityPolicy -Identity DemoMobilityPolicy -IPAudioMobileMode
"WifiOnly" -IPVideoMobileMode "WifiOnly"
```

PowerShell
WifiOnly
AllNetworks

IPAudioMobileMode

```
New-CsTeamsMobilityPolicy -Identity DemoMobilityPolicy -IPAudioMobileMode
"WifiOnly" -IPVideoMobileMode "WifiOnly"
```

PowerShell
WifiOnly
AllNetworks
