# Intelligence in Threat Hunting

Start your journey with Intelligence in Threat Hunting, an engaging and practical course designed to deepen your understanding of cyber threat intelligence in modern defense strategies. This course explores the role of strategic, operational, tactical, and technical intelligence across the full intelligence lifecycle, from planning to dissemination. You'll learn how to apply real-world intelligence cycles, analyze adversaries using MITRE ATT&CK, enrich and contextualize indicators of compromise, and integrate CTI into SIEMs and detection workflows. By mastering intelligence-driven methodologies and frameworks like STIX, TAXII, and the Traffic Light Protocol, you'll be equipped to transform raw data into actionable insights for proactive threat hunting.
